CAREER OBJECTIVE

Highly motivated software engineering intern with a bachelor's degree in information technology and a specialization in Web and Mobile Application Development. Seeking an opportunity to apply theoretical knowledge and gain practical experience in software development. Eager to collaborate with experienced professionals and contribute to the success of a dynamic team.

Education

Bachelor's in information and technology (Completed)

Victoria University, Sydney

TECHNICAL SKILLS

- Proficient in HTML5, CSS3, and JavaScript
- Experience with responsive web design and mobile-first development
- Familiar with CSS preprocessors like SASS and LESS
- Knowledge of version control systems (e.g., Git)
- Strong understanding of web performance optimization
- Experience with front-end frameworks/libraries (React)
- Ability to collaborate with back-end developers.
- Problem-solving skills and attention to detail

WORK EXPERIENCE

Reliable IT Solution– IT Customer Support (Intern)

Sutherland | 05/21 - 08/21

- Installing and organizing computer hardware, software, network, printer, and scanner
- Repairing and replacing equipment as necessary
- Troubleshoot, diagnose, and resolve technical hardware or software issues
- Maintaining the document in Meeting
- Frequently check the ticketing system for incoming service desk request; then evaluate plus route them.

ACADEMIC PROJECT (GitHub: <https://github.com/GauravShreenet/Restaurant-Project>)

Application Demo: <https://www.youtube.com/watch?v=LPYipGHUkB8>

- Developed a mobile app for restaurants to boost customer engagement.
- Tools: Android Studio, Java, Node.js, Firebase.
- Created a user-friendly app for customers to place food orders and book table reservations.
- Enabled admin login for menu updates, making it a management tool for restaurants.
- Streamlined restaurant operations, enhancing customer experiences.

Project 2: Personal Portfolio Website (GitHub: <https://github.com/GauravShreenet/portfoliomain>)

- Designed a responsive personal portfolio website to showcase projects and skills.
- Incorporated React's Framer Motion library for dynamic animations, enhancing user engagement.
- Learned component-based web development and ensured cross-browser compatibility.
- Emphasized visual appeal, optimized user experience, and received valuable feedback for iterative improvements.
- Strengthened proficiency in React.js and modern front-end development.
